Access Request Workflows and Access Code Rules Improve in Symmetry CONNECT & GUEST

Get Your Hosted Solutions Tech Update

By Matt MacIntosh, Product Manager Hosted Solutions, AMAG Technology

The newest versions of Symmetry CONNECT Identity Management and Symmetry GUEST Visitor Management include enhancements around the rules and workflows associated with access groups as well as, the ability to define access groups a visitor will receive prior to being checked in. [Read more.](#)

New Pricing Effective January 1, 2022

As a reminder, 2022 pricing is now in effect. Please update your systems. Contact your [Regional Sales Manager](#) with any questions.

Microsoft® Security Updates & Symmetry Systems Requirements

The Microsoft Security Update statements are available on the [Partner website](#). Go to Technical Bulletins/Microsoft Security Updates and look for the February 2022 versions.

Microsoft Security Updates are available for:

- v8.x
- v9.x
- Hosted Systems

These updates document the Microsoft patches that have been evaluated against supported Windows and Server platforms for Symmetry versions v8.x, v9.x and hosted systems. We are no longer updating the V7.0.1 patch testing due to Microsoft withdrawing free OS support.
