

SYMMETRY TOUCHVIEW MOBILE APPS

Symmetry TouchView combines the power of Symmetry CompleteView Video Management System with the freedom of mobile access to live video, recorded video and PTZ camera control from a powerful, fully integrated interface. Symmetry TouchView Mobile apps are available for the iPod® touch/ iPhone®/ iPad® and Android™ smartphones.

Users can instantly access, monitor and review live and recorded video from any camera connected to a Symmetry CompleteView recording server in the system. In addition, cameras from multiple servers can be accessed simultaneously with PTZ control. Symmetry CompleteView's powerful Dynamic Resolution Scaling automatically sizes the video for live viewing, significantly reducing network usage and providing higher frame rates over mobile connections.

KEY FEATURES

- Seamless integration with Symmetry CompleteView Video Management System
- Full interaction with Symmetry CompleteView live video and recordings
- Utilizes Symmetry CompleteView's Dynamic Resolution Scaling providing optimized video transmission over low bandwidth connections
- Incorporates analog, IP, megapixel, and HD video available from Symmetry CompleteView
