AMAG Technology's line of Integrated Video Servers combine server, switch, and Symmetry CompleteView VMS software for professional video surveillance deployments. Delivered with CompleteView ONE or Pro versions and a standard 3-year hardware warranty, simply add cameras for an out of the box, fully capable all-in-one server.

Symmetry Integrated Video Servers include PoE+ switch, video storage and software to scale from a single unit to thousands of appliances to provide for a secure, enterprise class, distributed video surveillance architecture.

The Integrated Video Servers come fully-licensed with Symmetry CompleteView Pro Video Management Software to match the number of available PoE ports (8, 16, or 24). Just add cameras for a fully capable, enterprise class video surveillance solution.
